![DINERWARE. Intuitive Restaurant Software]

Fast Casual / Counter Service / QSR POS

Flexible order entries, pre-order tracking and more — Dinerware helps you serve fast

Dinerware is designed from your point of view and enables staff to move lines fast. Settle a ticket within two touches and manage the menu during the lunch rush in seconds from any terminal without a system restart.

Two-touch Fast Pay™

Sell an item in TWO TOUCHES! Fast Pay works well for high volume, fast-paced counter service and quick serve restaurants.

Discount rules

Blue plate specials made easy! Create manual comps, coupons and automatic discounts in seconds. Define discount rules: select which items receive the discount during which hours or days, set how prices are affected and more.

Menu changes

Add a new menu item at the last minute. Make real time menu changes from any terminal without a restart.

Delivery / Customer Smart Search™

Look up any customer and view a menu of favorite items! Delight customers with the ability to recall and order their favorites instantly.

Instantly access reports with Live System™

Use reports to monitor job performance, payroll hours, voids, daily sales and more. Export reports to Excel, .csv, .pdf and other formats.

Mobile and online ordering

Open up a new revenue stream without restructuring your business! Offer customers the convenience of sending a text message that pays for and orders their favorites.

Dinerware helps you provide outstanding customer service every time.
