Fine Dining Restaurant POS Software

Advanced kitchen management tools bring you closer to your customers

Created by restaurateurs for restaurateurs, Dinerware is designed from your point of view. Your restaurant attracts legions of loyal customers because of its reputation. Dinerware enables you and your staff to create a superior dining experience for your customers every time.

Coursing

Enter appetizers, main courses, and desserts at once. The kitchen receives a single order organized by course and seat positions.

Share items

Split a bottle of wine among a party of any size with just a few touches. Share any item in any proportion among any number of people!

Ticket handling

Quickly handle multiple open tickets at the same time: combine them, make payments, assign tips, and much more.

Menu changes

Add a new menu item at the last minute. Make real time menu changes from any terminal without a restart.

Customer Smart Search™

Look up any customer and view a menu of favorite items! Delight customers with the ability to recall and order their favorites instantly.

Instantly access reports

Use reports to monitor job performance, payroll hours, voids, daily sales and more from any terminal. Export data to applications such .csv, .pdf or Excel.

Dinerware helps you provide outstanding customer service every time.
